

Placement Report

Year 2020 – 21

CIBMRD has completed its final placement process for the batch 2020-21. Big disappointing year for us because of the drastically low turnout of students for placement because of the pandemic. Placement season in itself started very late than usual. Even the Recruiters turnout was less as we could not invite companies because of the timid response from the students side. However whatever little recruitment happened recruiters have shown immense confidence in the exceptional capabilities of students of CIBMRD. This was evident from the fact that a companies offered coveted roles across the domains. The highest CTC offered was 7.8 Lacs per annum with an average and median CTC of 3.1 Lacs per annum. Many of our students around 20 odd numbers have ventured into business is another blessing in disguise - thanks to the pandemic. Some of the female students got married and shifted as such didn't took part in the placement. Some students got themselves placed outside the campus and made us feel proud. We are hoping to cover up our placement record in our next academic session by our efforts in the right direction.
